

Employee Scholarship Program Information Update

In 1994, a committee was assembled to create an employee scholarship program for children of City employees who are continuing their education. This committee is employee governed and funded and has been a huge success.

Employee donations through payroll deductions or a one-time donation make these scholarships possible. Though a lot of employees do not have college-age children, they have chosen to help improve the lives of other City employee's children with their donations.

Please consider a payroll deduction to support this very important program. This is a tax-deductible contribution.
